

What child doesn't dream of a brand new bike?

On Saturday May 8, XI Technologies held its **5th Annual Spokes for Little Folks** event! This yearly event is as a result of a commitment by XI Technologies to give back to the community.

The Spokes for Little Folks campaign provides some of Calgary's less fortunate children with a new bike and bike-safety training. Children and parents from a variety of social service agencies gathered together at Chinook Center to enjoy a morning of excitement! This included viewing a new release movie, popcorn, drinks, hamburgers, hotdogs, sno-cones, candy floss and best of all a new bike!

We are proud to hold this event every year, but could not do it alone. We would like to recognize the special people who donated their time and resources to help us make this event a success:

✓**CAPL Annual Golf Tournament Participants**

\$4000.00 cash from individual contributors

✓**Chinook Centre**

Donated use of parking lot during peak time

✓**Calgary Paramedics Charity Society**

New Bike Helmets for all the children

✓**The Cineplex Theatre Chinook**

Donated use of the theatre, a free movie and refreshments

✓**Peter's Drive In**

Donation of Lunch for 200 children, parents & staff

✓**SportChek – Chinook Centre**

Donated bells, bike assembly, storage & transport

✓**Chinook Centre Security Bike Patrol Team**

Safety Clinic for all bike recipients

✓**EDGE Entertainment** Bouncy House Rental & Clown Entertainment

XI Technologies specializes in enhanced energy information for the petroleum industry. Our flagship products are: the H₂S Search and the AssetBook. The H₂S search is focused on ERCB compliance and safety regulations and assists companies to prepare their drilling programs. The AssetBook helps companies identify potential acquisition, divestiture, merger, trade and farm-in opportunities.
